👤 PROFILE

I am a software developer and tech enthusiast with solid experience in Node.js, Express, and MongoDB, and a strong passion for AI, machine learning, and data science. Built impactful projects. Always eager to learn and grow, I bring problem-solving skills, clean code practices, and a drive to deliver scalable, intelligent solutions that add real value to your company's tech ecosystem.

🎓 EDUCATION

Bachelors of Technology in Computer Science, Noida Institute of Engineering and Technology, Greater Noida
November 2022 — Present

★ PERSONAL PROJECTS

Wanderlust

A Web application with features like property listings, booking system, and user authentication. Developed RESTful APIs for efficient user interaction and data handling and implemented scalable backend architecture with seamless data management and performance.
